

## Take advantage of new ways to access your retirement plan account

We are excited to introduce enhancements to your online retirement planning experience, such as the ability to check your retirement account balance using a mobile device. To take advantage of these changes, and for your additional online security, you will need to re-register your retirement plan account.

### Re-register your account

Here's how:

- Visit **wellsfargo.com**
- Choose **Sign Up** at the top of the page
- Complete the registration information; it'll only take a few minutes to complete

You will need to re-register your account if this is the first time you are signing on to view your retirement plan account via **wellsfargo.com**. If you have any questions, contact the Retirement Service Center at 1-800-SAVE-123 (1-800-728-3123). Representatives are available from 7:00 a.m. to 11:00 p.m. Eastern Time.

**Have other Wells Fargo accounts that you access online?** No need to re-register. Just sign on using your existing wells Fargo.com username and password.

### Access all your Wells Fargo accounts in one place, or via a mobile device

Once you re-register, you can:

- Sign on to your retirement account at **wellsfargo.com**.
- Access your retirement plan account, and any other Wells Fargo accounts you may have, all in one place.
- Check your retirement account balance through the Wells Fargo mobile application using the same username and password.
