

Fall Projects with EBSCO Hobbies and Crafts Reference Center

Looking for a new autumn craft? Below are some fun fall décor projects you can find in the EBSCO Hobbies and Crafts Reference Center, available through the Navy MWR Digital Library website. Most of these require preexisting skills (noted on the page), but the basics of many of these skills can be found on Universal Class (access instructions are available at www.navymwr.org/navy-mwr-at-home/library/universal-class).

Before looking at any of these links, log in to the Navy MWR Digital Library website (www.navymwrdigitallibrary.org), then find “EBSCO Hobbies and Crafts Reference Center” in the "A-Z Directory" and click the “Visit” button. In the upper right corner of the Hobbies and Crafts site, you will see a “Sign in” link that can be used to create an account. Your account will let you bookmark projects for easy reference, but more importantly, it can be used to access this and other EBSCO resources, including NoveList and Consumer Reports, without having to sign in to the Navy MWR Digital Library website again. While signed in, copy the links into your web browser.

Autumn Serenity:

The article shows a thank you card, but these quilled leaf and stem of wheat designs can be used on a variety of flat and paper-based decor.
